Panel Study of Family Dynamics

RC I 2011

Hello, we are interviewers from the Center for Survey Research, Academia Sinica. We are conducting research on families and their children in Taiwan now, which surveys 5,000 families. The project has been conducted for more than 10 years, since 1999. Due to the fruitful results in previous surveys, we would like to continue the survey and visit you again. We will not bother you too much, and will give you a present after this interview. During this visit, some of the questions are the same as those in the past questionnaires. The main reason is that we can accumulate similar data at different time points so that we can analyze any change in work experiences and family interactions as time goes on. We expect your understanding and also thank you for patiently replying. In addition, we will give you a coupon for a lucky draw with your questionnaire number. In March 2011 we will hold a lucky draw; the first prize is about NT\$12,000 (total 2 winner), the second prize is about NT\$6,000 (total 5 winners), the third prize is about NT\$2,000 (total 48 winners), the fourth prize is about NT\$2,000 (total 80 winners). The list of winners will be announced on our website (<http://psfd.sinica.edu.tw/>). Thank you for your cooperation.
